**More Kinds of Being: A Further Study of Individuation, Identity, and the Logic of Sortal Terms** E. J. Lowe

Taking into account significant developments in the metaphysical thinking of E. J. Lowe over the past 20 years, *More Kinds of Being: A Further Study of Individuation, Identity, and the Logic of Sortal Terms* presents a thorough reworking and expansion of the 1989 edition of *Kinds of Being*.

- Brings many of the original ideas and arguments put forth in *Kinds of Being* thoroughly up to date in light of new developments
- Features a thorough reworking and expansion of the earlier work, rather than just a new edition
- Reflects the author's conversion to what he calls 'the four-category ontology,' a metaphysical system that takes its inspiration from Aristotle
- Provides a unified discussion of individuation and identity that should prove to be essential reading for philosophers working in metaphysics.
