## **Fostering Comprehension in English Classes: Beyond the Basics (Solving Problems in the Teaching of Literacy)** Raymond Philippot PhD, Michael F. Graves PhD

This valuable, research-based guide gives middle and secondary English teachers the tools they need to improve the comprehension skills of *all* their students. Core chapters explain specific practices for fostering learning from texts; leading students to a thorough, lasting understanding of subject matter; nurturing meaningful responses to literature; explicitly teaching comprehension strategies; and engaging students in higher-order thinking. An additional chapter highlights vocabulary instruction. Throughout, attention is given to building comprehension skills in a diverse range of students, from high achievers to struggling readers and English language learners. A wealth of hands-on materials are featured, including lesson plans, scaffolded reading experiences, and a richly detailed example of a teaching unit that shows how all facets of comprehension instruction can be brought together in the classroom.
