Twins: And What They Tell Us About Who We Are Lawrence Wright

A New York Times Notable Book for 1998

Critical acclaim for Lawrence Wright's

A Rhone-Poulenc Science Prize Finalist

""This is a book about far more than twins: it is about what twins can tell us about ourselves.""—The New York Times

""With plenty of amazing stories about the similarities and differences of twins, Wright respectfully shows, too, how their special circumstance in life challenges our notions of individuality. A truly fascinating but sometimes spooky (Mengele's experiments with twins at Auschwitz figure among Wright's examples) study.""—American Library Association

""Like so much of Wright's work, this book is a pleasure to read. Because he writes so well, without pushing a particular point of view, he soon has you pondering questions you have tended to comfortably ignore.""—Austin American-Statesman

""Informative and entertaining . . . a provocative subject well considered by a talented journalist.""—Kirkus Reviews
