Cirque Du Salahi: Be Careful Who You Trust Diane Dimond

"Cirque Du Salahi: Be Careful Who You Trust" tells the INSIDE STORY of Michael and Tareq Salahi -- the never before revealed details of what happened before, during, and after their November 2009 appearance at the Obama administration's first state dinner. This journalistic autopsy reveals how one event can capture a ravenous media's attention, become the fodder for bogus political drama, and with razor-sharp and misplaced attention, ruin the reputation of a politically connected couple who did little more than attend a White House function for which they believed they had an invitation. Make no mistake. The copycat journalism surrounding the Salahis, which resulted in headlines like, "White House Gate-Crashers Investigated, Likely to be Indicted," could happen to any citizen who stumbles into the eye of a media storm. But this book is about more than what happens when the unsuspecting find themselves in the crosshairs of the national media. It reveals the truth about Michael and Tareq Salahi: where they came from; what shaped their personalities; what obstacles they overcame; and what motivates them to do what they do. It is quite simply the background of the story heard 'round the world and how this couple, from the tiny town of Hume, Virginia, was able to survive the onslaught. What happened to the Salahis is much more than any reality television show can capture. The true story about this couple should serve as a mirror held up to the media to point out the disturbing trend of trimmed-to-the-bone newsrooms overreacting and exploiting certain stories. It also offers a wake-up call to Americans who believe that their news sources of choice are still trustworthy, when in reality they are often simply parroting the poorly researched work of others. The reader will be left wondering what ever happened to good journalism but not wondering what really happened that night at the White House.
