Eat More Food, Lose More Weight

There has been this consensus that in order to lose weight, you need to eat less and exercise more. This book essentially disproves that. The recipes mentioned here in this book are specifically designed to fulfil all of your cravings, appetites and tastes - all while maintaining a slim figure, losing weight and boosting your metabolism! As these recipes are so nutrient dense, you'll be guaranteed to be full and satisfied knowing that you've just successfully boosted your metabolism in the process. Instead of 'controlling' or 'limiting' the number of foods you eat to maintain your figure, these recipes work in the opposite way - the more you eat, the more you benefit! Think of it like eating vegetables - the more you eat them, the more weight you lose in the long run. These recipes work in the same way, but are way more delicious and fun than eating veges all day.
