CRC Handbook of HPLC for the Separation of Amino Acids, Peptides, and Proteins. Volume II

William S. Hancock

CRC Handbook of HPLC for the Separation of Amino Acids, Peptides, and Proteins. Volume II

William S. Hancock

All areas of high performance liquid chromatography (HPLC) relevant to the separation of amino acid and polypeptide samples are described in these comprehensive volumes. Eighty-four chapters cover the application of HPLC to research in the life sciences. Both basic information and specific details are presented on such areas as commercially available HPLC columns, ligand-exchange chromatography, peptide hormone separations, peptide antibiotic separations and drug-protein binding. Practical suggestions are given to help you avoid pitfalls which can exist in the analysis of biological materials.
