Java Cookbook, Second Edition

Ian F Darwin

Java Cookbook, Second Edition Ian F Darwin

You have a choice: you can wade your way through lengthy Java tutorials and figure things out by trial and error, or you can pick up *Java Cookbook*, 2nd Edition and get to the heart of what you need to know when you need to know it.

With the completely revised and thoroughly updated *Java Cookbook*, 2nd Edition, Java developers like you will learn by example, try out new features, and use sample code to understand how new additions to the language and platform work--and how to put them to work for you.

This comprehensive collection of problems, solutions, and practical examples will satisfy Java developers at all levels of expertise. Whether you're new to Java programming and need something to bridge the gap between theory-laden reference manuals and real-world programs or you're a seasoned Java programmer looking for a new perspective or a different problem-solving context, this book will help you make the most of your Java knowledge.

Packed with hundreds of tried-and-true Java recipes covering all of the major APIs from the 1.4 version of Java, this book also offers significant first-look recipes for the most important features of the new 1.5 version, which is in beta release. You get practical solutions to everyday problems, and each is followed by a detailed, ultimately useful explanation of how and why the technology works.

Java Cookbook, 2nd Edition includes code segments covering many specialized APIs--like those for working with Struts, Ant and other new popular Open Source tools. It also includes expanded Mac OS X Panther coverage and serves as a great launching point for Java developers who want to get started in areas outside of their specialization.

In this major revision, you'll find succinct pieces of code that can be easily incorporated into other programs. Focusing on what's useful or tricky--or what's useful and tricky--*Java Cookbook*, 2nd Edition is the most practical Java programming book on the market.

From reader reviews:

Michael Naylor:

Nowadays reading books become more and more than want or need but also work as a life style. This reading addiction give you lot of advantages. The advantages you got of course the knowledge even the information inside the book this improve your knowledge and information. The information you get based on what kind of reserve you read, if you want get more knowledge just go with knowledge books but if you want sense happy read one with theme for entertaining including comic or novel. The actual Java Cookbook, Second Edition is kind of guide which is giving the reader erratic experience.

Penny Stout:

Your reading sixth sense will not betray you, why because this Java Cookbook, Second Edition publication written by well-known writer who really knows well how to make book which can be understand by anyone who else read the book. Written in good manner for you, dripping every ideas and composing skill only for eliminate your own hunger then you still hesitation Java Cookbook, Second Edition as good book not simply by the cover but also with the content. This is one e-book that can break don't assess book by its handle, so do you still needing a different sixth sense to pick this specific!? Oh come on your reading sixth sense already told you so why you have to listening to a different sixth sense.

Larry Moore:

Is it an individual who having spare time subsequently spend it whole day by simply watching television programs or just lying down on the bed? Do you need something new? This Java Cookbook, Second Edition can be the answer, oh how comes? A book you know. You are consequently out of date, spending your spare time by reading in this brand-new era is common not a geek activity. So what these books have than the others?

Michael Ogden:

What is your hobby? Have you heard that will question when you got students? We believe that that question was given by teacher to their students. Many kinds of hobby, Everyone has different hobby. And you also know that little person just like reading or as studying become their hobby. You need to know that reading is very important as well as book as to be the factor. Book is important thing to provide you knowledge, except your teacher or lecturer. You see good news or update about something by book. Many kinds of books that can you take to be your object. One of them is this Java Cookbook, Second Edition.
