Diversity's Promise for Higher Education: Making It Work Daryl G. Smith

Daryl G. Smith's career has been devoted to studying and fostering diversity in higher education. She has witnessed and encouraged the evolution of diversity from an issue addressed sporadically on college campuses to an imperative if institutions want to succeed. In *Diversity's Promise for Higher Education*, she analyzes how diversity is practiced today and offers new recommendations for effecting lasting and meaningful change.

Smith argues that in the next generation of work on diversity, student population mix and performance will no longer be acceptable indicators of an institution's diversity effectiveness. To become more relevant to society, the nation, and the world while remaining true to their core mission, institutions must begin to see diversity, like technology, as central to teaching and research. She proposes a set of practices that will help colleges and universities embrace diversity as a tool for institutional success.

This thoughtful volume draws on 40 years of diversity studies. It offers both researchers and administrators an innovative approach to developing and instituting effective and sustainable diversity strategies.
