Retirement Portfolios, Set: Theory, Construction, and Management Michael J. Zwecher **A comprehensive set of retirement portfolio guidance for finance professionals**

Retirement is one of the most important parts of the financial planning process. Yet only two percent of financial advisors describe themselves as competent in retirement planning.

Constructing a retirement portfolio is viewed as a difficult endeavor, and the demands facing financial advisors responsible for this task continue to grow. The *Retirement Portfolios Set*—comprised of a book and workbook—will help you develop the essential skills necessary to excel at this discipline and give you a better understanding of the entire process. The book outlines how to create a portfolio that will provide income, continue to generate growth, and protect assets from disaster. While the workbook offers you a wealth of practical information and exercises that will solidify your understanding of the tools and techniques associated with this discipline.

- The book Examines how portfolios should be prepped in advance so that the transition from "working" portfolio to retirement portfolio is smooth and seamless
- The workbook will test your knowledge of the information addressed in *Retirement Portfolios*, before you put it to work in real world situations
- Details the differences in managing a retirement portfolio versus managing portfolios during asset accumulation years

The ability to create retirement portfolios and manage their risks are skills you must possess to be an effective financial advisor. *Retirement Portfolios Set* will help you achieve this elusive goal.
