Multimedia-based Instructional Design: Computer-Based Training; Web-Based Training; Distance Broadcast Training; Performance-Based Solutions, Second Edition William W. Lee, Diana L. Owens
Multimedia-Based Instructional Design is a thoroughly revised and updated second edition of the best-selling book that provided a complete guide to designing and developing interactive multimedia training. While most training companies develop their training programs in many different technological delivery media--computer-based, web-based, and distance learning technologies--this unique book demonstrates that the same instructional design process can be used for all media. Using just one process reduces cycle time for course development--and also reduces costs.
