Note to Parent:

Children truly enjoy making positive statements. It is easier for children than it is for adults because kids still love themselves. Children are willing and eager to give themselves a compliment. Every child has a different emotional maturity, attention span, and need. While the stories are best suited for ages 6-12, do not let this be your primary reason for selecting. You know your child best and remember this is not about the reading level. The focus is on the actual techniques.
