## **Auto Math Handbook HP** John Lawlor

Mathematics are essential to any automotive project, be it a stock restoration, rebuild or all-out race car. The Auto Math Handbook is a collection of the most basic calculations, formulas and equations required for engine and car building. Written for the layperson, the Auto Math Handbook is easy to read and understand, with /"real world/" applications that offer solutions to the most common problems faced by do-it-yourself street rodders, engine builders, and racers
